LPES Team Members

A national team of more than 30 experts from 15 land-grant universities, the U.S. Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS), and the USDA Agricultural Research Service (ARS) prepared, peer reviewed, and pilot tested the LPES curriculum with assistance from MidWest Plan Service (MWPS) and guidance from the U.S. Environmental Protection Agency's (EPA's) National Agriculture Compliance Center (Ag Center). The LPES curriculum development effort was funded by a grant from the EPA's Ag Center with program oversight through the USDA.

This material is based upon work supported by the Cooperative State Research, Education, and Extension Service; U.S. Department of Agriculture; and the U.S. Environmental Protection Agency, National Agriculture Compliance Assistance Center, and the University of Nebraska Cooperative Extension, University of Nebraska-Lincoln, under Cooperative Agreement Number 97-EXCA-3-0642.

Livestock and Poultry Environmental Stewardship (LPES) Curriculum:

A National Education Program

For more information, visit our website at www.lpes.org

A collaborative effort of 15 land-grant universities, the EPA Ag Center, the USDA, and MWPS

MWPS

What materials were prepared?

The nationally developed and regionally piloted educational materials prepared for the Livestock and Poultry Environmental Stewardship (LPES) curriculum are as follows:

- ✓ **26 independent lessons** addressing animal dietary strategies, manure storage and treatment, land application and nutrient management, and outdoor air quality
- ✓ Producer-friendly environmental stewardship and/or regulatory compliance **assessment tools**
- ✓ **PowerPoint presentations** with speaker's notes

What formats are available?

To meet your educational needs, the LPES curriculum is now available in these formats:

- ✓ A **searchable CD containing the 26 lessons** in PDF format, the PowerPoint presentations, and the assessment tools as well as Adobe's Acrobat Reader
- ✓ A shrink-wrapped, 3-hole punched **printed set of the lessons**, including the assessment tools, with a cover suitable for a binder
- ✓ A **2-CD set of PageMaker files** that can be adapted to state or regional needs

Are curriculum materials online?

To view the individual lessons in PDF format, access the LPES website at www.lpes.org. If you have any questions or comments, call MWPS at 1-800-562-3618 or send an e-mail to mwps@iastate.edu.

The LPES program provides producers, industry stakeholders, and educators with access to the latest science-based information.

Producers may find this product valuable as a

- Reference to quickly access the science behind specific issues, technologies, or practices.
- Tool to review the environmental risks associated with their operation.

Educators will find that LPES offers

- PowerPoint presentations for teaching workshops, certification programs, or employee training sessions.

- Assessment tools for reviewing an operation's environmental risk and compliance with regulations.
- Reference materials that can be modified and adapted to local needs or individual species.

Sample Applications

The LPES curriculum lessons are being used to support

- State-mandated training services for certified livestock managers (Illinois, Georgia, North Carolina).
- Nutrient management planning workbook for producers (Kentucky).
- CNMP continuing education programs for public and private sector advisors (Tennessee, Michigan).
- Development of Agricultural Environmental Management System (Utah).
- Model training program for manure applicators (Indiana).
- Odor management workshops for producers and advisors (Nebraska).
